About

I'm a front-end developer who likes building beautiful user interfaces with React and "friends" (MobX, React Router, Next, etc), set up Webpack configs, coding responsive HTML templates using CSS-grid and CSS custom properties, and improve websites performance. Also, I'm a big fan of TypeScript and Tailwind CSS

Hard Skills

CSS (SCSS, PostCSS)

HTML (Pug/Jade)

JavaScript (ESNext/Babel)

TypeScript

React (Next)

State managers (MobX/Redux)

Webpack (Rollup/Parcel/Vite)

Linters (ESLint)

Formatters (Prettier)

REST/GraphQL

Storybook

Unit/E2E tests

(Jest/Playwright/Puppeteer)

Soft Skills

Problem solving

Creativity

Presentation skills

Perfectionism

Communication
